

### **Remarks**

Currently pending in the application are Claims 1-11. In view of the following remarks, Applicant respectfully requests reconsideration by the Examiner, and advancement of the application to allowance.

### **35 U.S.C. § 102**

The Examiner rejected Claims 1-11 under 35 U.S.C. § 102 (b) as being anticipated by Maretti (U.S. Pat. No. 5,441,993).

To anticipate a claim, a reference must teach every element of the claim. *See MPEP § 2131; Richardson v. Suzuki Motor Co.*, 868 F. 2d 1226, 1236, 9 USPQ2d 1913, 1920 (Fed. Cir. 1989) (“the identical invention must be shown in as complete detail is as contained in the . . . claim.”).

Maretti does not expressly or inherently teach every element of each claim of the present invention. In particular, Maretti does not teach a process for preparing a flexible polyurethane foam by reacting an isocyanate reactive composition with a polyisocyanate-terminated prepolymer having an NCO value of 5-30% by weight as claimed in the present application. Therefore, Applicant respectfully requests the rejection of claims 1-11 under 35 U.S.C. § 102 (b) be withdrawn.

### **Conclusion**

In view of the foregoing remarks, Applicant respectfully submits that the application is now in condition for allowance, and respectfully request issuance of a Notice of Allowance directed towards the pending claims.
